# ITEM NO. <u>FM7</u> MOTION APPROVING REVISIONS TO THE AUTHORITY'S ELECTRONIC SIGNATURE POLICY

#### Recommendation

Approve updates to the Authority's Electronic Signature Policy.

#### Strategic Plan Linkage

- 3. **Financial:** Develop financial strategies and practice sound fiscal management to ensure wise use of ratepayers' resources.
  - a. Operate EBDA's system efficiently.

#### **Background**

The COVID-19 pandemic necessitated new ways of working and accelerated trends that had already begun, with more people working remotely and conducting business digitally. In order for the Authority to conduct business efficiently in a remote-work environment while still ensuring legal requirements are consistently met, the Authority adopted an Electronic Signature Policy in August 2020.

Staff reviewed legal requirements as well as best practices for issuance and acceptance of electronic signatures. The attached Policy outlines the approach, including a summary of situations where an electronic signature is acceptable, and those where, by code, it is not.

The Financial Management Committee recommended at the time that the Policy reflect the Authority's currently selected electronic signature certification service, to avoid confusion. After reviewing several options, staff recommended implementation of DocuSign eSignature.

#### **Discussion**

As discussed at the December 2023 Financial Management Committee Meeting, EBDA has successfully been implementing the Policy as electronic signatures have become increasingly preferred. While implementation of DocuSign has been smooth, staff recommends that the Policy be modified to avoid specifying a particular software package. Staff therefore proposed minor modifications to the Policy and Signature Matrix, attached in track changes and clean versions, that allow for greater flexibility in choice of software as tools and preferences change.

The Financial Management Committee reviewed the proposed revisions at its December 2023 meeting and recommended the revised Policy be brought forward for approval.

POLICY NUMBER: 3

\_\_\_\_\_\_

NAME OF POLICY: Electronic Signature

\_\_\_\_\_

LAST REVISED: August 20, 2020 January 18, 2024

PREVIOUSLY REVISED: NAAugust 20, 2020

**PURPOSE:** This Policy establishes the acceptable technologies and procedures for the use of electronic signatures in EBDA-related business.

EBDA recognizes the need to increase efficiency, reduce waste, and provide members of the public with convenient access to EBDA services. Advances in technology can assist EBDA in achieving these goals while providing security for document management. This policy balances the need for efficient services against the risks of unauthorized activities by providing the approved electronic signature method and guidelines for certain documents and transactions.

This Policy applies to EBDA's acceptance of electronic signatures from parties outside of EBDA, and the use of electronic signatures on documents executed on behalf of EBDA. It does not increase the scope of authority of EBDA's authorized signatories, rather it provides an alternative means to execute EBDA-related documents. These are minimum standards. Nothing in this policy prohibits an EBDA official or employee, with the consent of the EBDA General Manager, from requiring a wet signature or higher form of secure electronic signature if he or she believes it is prudent or necessary. The General Manager may accept or authorize the acceptance of an electronic signature when the circumstances surrounding the transaction address authentication and security concerns. This Policy does not apply to electronic signatures accepted or utilized before the original effective date, and is intended to provide guidance for electronic signatures accepted thereafter. Any transaction must be analyzed under the facts and circumstances existing at the time a transaction was executed.

#### **DEFINITIONS:**

An "electronic record" is defined by California's Uniform Electronic Transactions Act ("UETA") (Civil Code section 1633.1, et seq.), as "a record created, generated, sent, communicated, received, or stored by electronic means." An electronic record generally contains information or a data file that was created and stored in digitized form through the use of computers, machines, and software applications. The format of an electronic

record does not change the fact that it is a record subject to applicable public records law, but its electronic form and its dependence on machines for creation and reference do change the way these records must be stored and managed.

An "electronic signature" is defined both in the federal Electronic Signatures in Global and National Commerce Act and the UETA. It is defined as "any sound, symbol, or process attached to or associated with an electronic record and executed or adopted by a person with the intent to sign the electronic record." (Civil Code section 1633.2(h).) It is the electronic equivalent of a handwritten, wet, or manual signature on paper, and therefore must have certain characteristics for evidentiary purposes. EBDA divides this broad scope of electronic signatures into categories of documents based upon the level of security needed both to ensure the proper person is conducting the transaction and that the technology for transmission of the signature is adequate.

Under California law, a "digital signature" is defined as "an electronic identifier, created by computer, intended by the party using it to have the same force and effect as the use of a manual signature." Government Code section 16.5 states a digital signature shall have the same force and effect as a manual signature if and only if:

- 1. It is unique to the person using it.
- 2. It is capable of verification.
- 3. It is under the sole control of the person using it.
- 4. It is linked to data in such a manner that if the data are changed, the digital signature is invalidated, and
- 5. It conforms to regulations adopted by the Secretary of State.

Government Code section 16.5 also states that the use or acceptance of a digital signature is at the option of the parties to the transaction and nothing in the law requires a public entity to use or accept the submission of a document containing a digital signature.

For the purpose of this policy, "digital signature" and "electronic signature" shall have the same meaning.

An "electronically signed record" is a record, file, or document that has been electronically signed by means of an electronic signature and that is related to the conduct of the EBDA's official business.

#### POLICY:

#### **Requirements for Electronic Signatures**

EBDA staff shall establish and maintain a software systems to be used by EBDA staff for the purposes of requesting, collecting, and executing digital signatures and electronic records, consistent with the encryption standards established by, and selected from the "Approved List" of digital signature providers, authorized by the State of California. Staff

has selected DocuSign eSignature as EBDA's current Digital Signature System. EBDA may change Digital Signature System vendors in the future via Commission approval of changes to this Policy.

For electronic signatures and records created and executed using EBDA's Digital Signature System, the criteria below shall be considered met:

#### 1. Intent to Sign

Electronic signatures, i.e. not traditional wet ink signatures, are only valid and legally binding if both parties intend to sign and execute the agreement electronically.

#### 2. Consent of the Signing Party

EBDA will accept electronic signatures when the parties:

- consent to the transaction,
- consent that the transaction be completed electronically, and
- consent to receive disclosures electronically.

#### 3. **Documentation of Effect of Signature**

The Administrative Assistant will maintain the security procedure and audit trails for various electronic signature technologies.

#### Routing of Electronically Signed Documents

Use of electronic signatures will not change who within EBDA must approve or execute a transaction, nor will it change the routing process for the transaction. Agreements and contracts will continue to require the attestation of the General Manager.

#### Signed Copies Provided to All Parties

When a document is electronically signed by all parties, EBDA will provide a copy of the electronically signed document to the other parties in an electronic format that is capable of being retained and printed by the other parties.

### Storage and Archiving of Electronically Signed Documents

EBDA staff primarily responsible for execution of a transaction shall ensure that a fixed version of the final electronic document, and any supporting documentation, is executed and collected in a manner determined by the General Manager. EBDA staff is responsible for filing and maintaining electronic records in a manner that complies with EBDA's document retention schedule and policies.

For example, the following methods of electronically securing the final version of a document are acceptable, starting with the more secure methods: creating a final PDF that includes an encrypted signature which "breaks" if the document is modified; or saving

a native file (Word Document) that is locked to prevent future changes. Storage and archive locations may include EBDA's electronic filing system, a networked drive, or other electronic system, as may be determined by the General Manager.

#### **Classes of Documents Permitted by the General Manager**

The security requirements for electronic signatures range from simple to complex, depending on the transaction. A list of the documents for which electronic signatures are approved by the General Manager is available below. This list is not intended to be an exhaustive list, nor does it impose electronic signature as a requirement for any particular transaction.

EBDA staff should work with the General Manager to determine if EBDA's Digital Signature System can be used for specific documents and with EBDA Legal Counsel to determine where applicable law permits an electronic signature be used. Any other document that, by law, requires a wet signature shall not be signed electronically.

A digital signature may be used or accepted on the following documents:

- i. Requests for proposals
- ii. Certificates and Permits (if permitted by law)
- iii. HR-related items, such as Employee Reviews and Personnel Action Forms
- iv. Commission/committee applications
- v. Legal filings such as Declarations
- vi. Service Agreements for Consulting & Professional Services
- vii. Financial Documents (if allowed by law)
- viii. Non-Professional Services Agreements
- ix. Internal and External Memoranda
- x. Letters and other correspondence

EBDA may accept an electronic signature form, and utilize the electronic signature software for the execution of documents for any other public entity, regulatory body, or non-profit public benefit corporation that has adopted electronic signature protocols acceptable to EBDA. Further, EBDA may accept any signature and execute any document using the digital signature technology with a certificate authority as approved by the California Secretary of State.

Classes of Documents for which Electronic Signatures are Prohibited

Civil Code section 1633.3 contains a list of transactions for which electronic signatures are not available. Any other document that, by law, requires a wet signature shall not be signed electronically.

A digital signature may not be used or accepted on the following documents:

- i. Documents or transactions that require a handwritten signature, including but not limited to transfers of interest in real property
- ii. Documents or transactions requiring a signature to be notarized or acknowledged
- iii. Unless the County Recorder issues an order or directive that otherwise permits electronic signatures, documents that are to be recorded with the County Recorder (including but not limited to Deeds, Conditional Use Permits, and Regulatory Agreements)
- iv. Initiative petitions
- v. Authority Resolutions
- vi. Authority Minutes
