

**EAST BAY DISCHARGERS AUTHORITY
REQUEST FOR PROPOSALS
FOR
FIRST MILE HORIZONTAL LEVEE PROJECT
DESIGN AND PERMITTING SERVICES**

ADDENDUM NUMBER 2

The following are questions submitted by prospective proposers and EBDA's answers:

1. The Required Certifications section (page 14 of RFP) mentions "As part of the proposal package, Proposers must submit all of the required certifications included as Attachments A through D." Is the firm submitting as the Prime solely responsible for including these forms in the proposal or are all firms represented in the proposal required to sign them as well?

Answer: The Prime consultant is solely responsible for signing and including these forms in the proposal. Signatures from subcontractors are not necessary.

2. In order to perform meaningful good faith outreach efforts and be fully compliant with EPA's Disadvantaged Business Enterprise (DBE) program, we would like to request an additional one-week extension (i.e. proposal submittal deadline of 28 March, Friday). Would that be possible?

Answer: Yes. The submittal deadline is hereby extended to 2pm on Friday, March 28, 2025. An amended schedule is presented below. If any proposer anticipates being unavailable for a zoom interview on Friday, April 11, please indicate that in your proposal and suggest alternate dates.

Section V.E. is amended as follows:

E. R F P SCHEDULE

EBDA issues RFP	February 4, 2025
